Re: Picillo Waste Disposal Site - Coventry, Rhode Island; Request for Information

Dear Mr. Blumstein:

This will confirm our telephone conversation today with respect to the July 22, 1982 letter of Lester A. Sutton to Dr. Luis Herz, manager of our Rhode Island Works in Coventry.

I requested that we be permitted to provide information only for our Rhode Island Works and not for the entire corporation. You agreed that we may limit our collection of information to plant sites in New England and New Jersey.

I also requested an extension of the thirty-day period for response because of the breadth of the information requested and the vacation shut-down of our Rhode Island Works. You were unable to grant this requested extension at this time. I agreed that we would use our best efforts to comply within the requested time, but I was unable to assure you that our collection of information would be completed by the August 27, 1982 deadline.

Sincerely,

George M. Britts
